### The Moments In Between: Laugh, Love, Live

We all experience valleys along our journey, but it's the moments in between that help deepen our faith and define who we are. Join other Christian women for an inspiring brunch as published author and national speaker Karen Pavlicin shares what she calls her 10-year growth spurt that affected more than her waistline. Although illness, death, lightning, and wasps have all knocked at her door, it is the moments in between that have shaped her perspective and brought her closer to God. Renew your spirit and celebrate the joy in your own journey as Karen talks about laughter, love, and living each day.

KAREN PAVLICIN is an award-winning writer and dynamic national speaker known for her practicality, inspirational insight, and sense of humor. An accomplished business leader, hall of fame athlete, singer-songwriter, and devoted mom, Karen strives to inspire others through her everyday celebration of life. She is the founder and board chair of The Andermax Foundation, a nonprofit organization that grants funds to find cures for major illnesses, use nature and the arts to heal people, and improve communities to eliminate poverty. Her published work includes *Surviving Deployment* and *Life After Deployment* for military families, the children's novel *Perch, Mrs. Sackets, and Crow's Nest*, a women's inspirational journal, and the music CD *Little Bit of Faith*.
